

In his seventh book, Infinite Astronauts, author Michael Brumfield challenges his readers to not be confined by the paradigms of previous UFO theories and religious practices. Basing his theories partially on the first law of thermodynamics, that matter can neither be created or destroyed, Brumfield presents a myriad of information drawn from vastly differing quarters. Infinite Astronauts dares us to think outside your comfort zone. Are you of stout enough mental fortitude to believe in the infinite? Brumfield believes you can and is counting on expanding your consciousness to ultimately save the human race.
