

Autonomous agents and multi-agent systems are computational systems in which several (semi-)autonomous agents interact with each other or work together to perform some set of tasks or satisfy some set of goals. These systems may involve computational agents that are homogeneous or heterogeneous, they may involve activities on the part of agents having common or distinct goals, and they may involve participation on the part of humans and intelligent agents. This volume contains selected papers from PRIMA 2002, the 5th Pacific Rim International Workshop on Multi-Agents, held in Tokyo, Japan, on August 18-19, 2002 in conjunction with the 7th Pacific Rim International Conference on Artificial Intelligence (PRICAI-02). PRIMA is a series of workshops on autonomous agents and multi-agent systems, integrating activities in the Asian and Pacific Rim countries. PRIMA 2002 built on the great success of its predecessors, PRIMATM98 in Singapore, PRIMATM99 in Kyoto, Japan, PRIMA 2000 in Melbourne, Australia, and PRIMA 2001 in Taipei, Taiwan. We received 35 submissions to this workshop from 10 countries. Each paper was reviewed by three internationally renowned program committee members. After careful reviews, 15 papers were selected for this volume. We would like to thank all the authors who submitted papers to the workshop. We would also like to thank all the program committee members for their splendid work in reviewing the papers. Finally, we thank the editorial staff of Springer-Verlag for publishing this volume in the Lecture Notes in Artificial Intelligence.

Collected Papers of Srinivasa Ramanujan, Saving Bernice: Battered Women, Welfare, and Poverty (Northeastern Series on Gender, Crime, and Law), Spotlight Presenters 2007: No. 14, The Female Population of France in the 19th Century: A Reconstruction of 82 Departments (Office of Population Research), Get God 2000, Social Research, Briot and Bouquets elements of analytical geometry of two dimensions, Big Bad Beast (The Pride Series Book 6), Wilderness Medicine CD-ROM, Famous Families of New York: Historical and Biographical Sketches of Families Which in Successive Generations Have Been Identified With the Development of the Nation (Classic Reprint),

Hmm upload this Intelligent Agents and Multi-Agent Systems: 5th Pacific Rim International Workshop on Multi-Agents, PRIMA 2002, Tokyo, Japan, August 18-19, 2002. Proceedings (Lecture Notes in Computer Science) pdf. Very thank to Archie Smith who share us a downloadable file of Intelligent Agents and Multi-Agent Systems: 5th Pacific Rim International Workshop on Multi-Agents, PRIMA 2002, Tokyo, Japan, August 18-19, 2002. Proceedings (Lecture Notes in Computer Science) with free. If you want the book, visitor should not post this ebook in hour web, all of file of pdf on sfaranda.com hosted at therd party site. If you grab the pdf today, you must be save this pdf, because, I dont know while the ebook can be ready on sfaranda.com. Click download or read now, and Intelligent Agents and Multi-Agent Systems: 5th Pacific Rim International Workshop on Multi-Agents, PRIMA 2002, Tokyo, Japan, August 18-19, 2002. Proceedings (Lecture Notes in Computer Science) can you get on your computer.
