

Lincolnshire is a largely rural county, which was reflected in the early history of the railway lines. The main lines mostly passed through on their way to somewhere else and the local traffic was handled by a large number of branch lines. Author Alan Stennett explores the history of the railways in Lincolnshire, starting with the very early days when it was expected that Lincoln would be on a main line to the north, only to lose out to what we now know as the East Coast Main Line. Using archive maps, original photographs and other sources, he traces the development of railways in the county, and their role in serving the great fishing port of Grimsby, bracing East Coast resorts such as Cleethorpes and Skegness, the iron and steel industries of Scunthorpe and the agricultural heartland of the Fens.

On 16 April, the East Lincolnshire Railway published their proposals for a railway and work started on the line in early The first train to run along it. Lincolnshire isn't the first place that a transport enthusiast would think of visiting for a themed break. But you may be surprised at the number. The railways reached Lincolnshire around the middle of the nineteenth century. Prior to that the county had been virtually isolated except by waterways.
