

In the age of social networking, educators, parents, and tutors have to think outside of the box in order to effectively teach the world's internet savvy children. If you've been wondering how this can be done, then this book is for you.... Teaching children in this day and age of social networking is presenting a unique set of challenges for today's educators. The inundation into the classroom of the Facebook culture and its accompanying social media mentality is rendering traditional methods of instruction ineffective and forcing the hand of the system. What are the solutions and how can tutors, parents, teachers, administrators, and home-schoolers connect to this new mindset and still prepare children individually for academic success above and beyond any given classroom? Meet Dr. La Vergne Lester Thatch, Academic Coach, Tutor, and developer of The Thatch Method of Teaching and Learning - an innovative strategy for teaching children that encourages educators to let go of the traditional roles of teacher/student in favor of building culture-friendly classroom environments where the roles of teacher and learner are interchangeable. Based on the context of her doctorate dissertation, Profile of a Professional Tutor introduces the sociocultural perspective, the educational theories, and the learning strategies that influenced Dr. Thatch's formulation of the Thatch Method. In this intriguing personal and professional journey, we come to understand the philosophies that ultimately defined the Doctor's™ role as an amazingly effective educator of children. The first of many books to come by Dr. Thatch including the full dissertation version of Profile of a Professional Tutor and the ebook series entitled The Effective Tutor, this ebook emphasizes the importance, in education, of creating interactive classroom environments and the powerful potential of tutoring as a catalyst for positive change in classroom management and in the education system itself. For educators, teachers, administrators, home-schoolers, tutors, parents, and anyone interested in quality teaching and learning from a fresh, proven perspective, Profile of a Professional Tutor is a must-have summer read.

Improving Reading Skills, 7th edition, Jonah and the Great Fish, Hope in the Dark, The Separation: Book Three in the Series: A Quest of the Ages, The Everything Parenting A Teenager Book: A Survival Guide for Parents,

An estimated 74% of Americans over the age of 18 use social networking websites. Do not "friend" or "follow" students on your personal social media accounts!
