

The Social Maps of America Series is a collection of books that illustrate social characteristics of United States counties and cities through GIS mapping. The series is unique because it allows the reader to view demographic and social data visually through pleasantly designed and professionally detailed maps. All data in the series is derived through the United States Census Bureau's American Community Survey. The maps in each book offer a comprehensive synopsis of several social characteristics for each specific city or county. All data is mapped by census tract, which is the smallest and most geographically local unit of census recording. This ensures that all data is accurate to real neighborhood conditions. The goal of the Social Maps of America Series to instill geographic curiosity in readers, and create the foundation to help them form their own conclusions regarding the who, what, where, when, and why of spatial social phenomenon. Social Topics of Interest Include: Percent Family Households Percent Households with one or more people under 18 years of Age Average Household Size Percent High School Graduate or Higher Percent College Graduate of Higher Percent Veterans Percent Same House 1 Year Ago Median Age Percent 65 Years of Age and Older Percent Native Born Percent Foreign Born Percent Speaking English Only in the Household Percent Unemployed Percent Commute by Driving Alone Percent Commute by Carpooling Percent Commute by Public Transportation Percent Commute by Walking Percent Work from Home Mean Travel Time to Work in Minutes Median Household Income Median Earnings for Males Median Earnings for Females Percent Living Below Poverty Level within Last Year Percent Occupied Housing Units Percent of Housing Built Before 1939 Percent Owner-Occupied Percent Renter-Occupied Median Value of Home in Dollars Percent Households where Housings Costs are more than 35% of Income Median Rent in Dollars Percent White Percent Black or African American Percent Asian Percent Native Hawaiian and other Pacific Islander Percent Hispanic or Latino of Any Race And Over 25 Ancestries Cook County is the 2nd largest county in the United States. It is an incredibly diverse and economically vital place. As the hub of the Midwest, Cook County serves as an important location for commerce, business, culture, and events. The entire City of Chicago is located within Cook County making it one of the most densely populated in the nation. It is filled with millions of unique people from a variety of different backgrounds. This book illustrates the large variety of population with a collection of maps. All of the characteristics listed above are mapped in this book and provide a comprehensive outlook of the spatial distribution of social phenomenon. Use this encyclopedia-like reference tool to master the social ins and outs of Chicago and Cook County
