Veterinary Medicine and Human Health. Animal and human health are intimately connected “ think about avian The University of Surrey's School of Veterinary Medicine, has.

After training, professional segregation continues: Community practitioners and academic professionals in veterinary and human medicine often work in parallel . At the same time, there are growing similarities between veterinary medicine and human medicine. (Rabinowitz and Conti) Both disciplines use similar.

Human and veterinary medicine have many commonalities. Key words: Human Medicine, Veterinary Medicine, One Health, One Medicine.

One of the major goals of the One Health Initiative is the integration of educational systems within and between human medical schools, veterinary medical.

The concept that animal health and the environment influence human health has been around since ancient times. Indeed, the initial mission of veterinary.
