

Take the Lead is a terrific series of books for all instrumentalists, young and old. Eight jazz classics are arranged for each instrument as stand-alone solos, or all the instruments can play together. Each song includes chord symbols in concert pitch for use by piano or guitar, or the player can use the full backing track from the CD as accompaniment. The CD also includes tuning notes and full version demonstration tracks of each song to help each musician learn the song. Its a great all-around package at a great price, and perfect for the band student who is looking for more music to play, especially as an introduction to jazz.
